## OTHER IDEAS?

- \* More 2-3 day trips within AZ, NM, or UT
- \* I just want to say that the hiking committee and leaders do a fabulous job for our club...a big THANK YOU !
- \* I think the trips to date have been well planned and generally enjoyed by all. Like to see more of the same. For those of us that leave in the summer, I prefer to have trips scheduled in April.
  
- \* Depends on the trip will determine when I could go. I definitely would go only on one trip per year. A trip to a desert area obviously Nov-March where some areas would be better visited July-sept.
- \* Importance of trip insurance for cancellation. importance of Health care insurance outside of continental U.S.
- \* Sensitivity to high elevation has begun to limit my hiking.
- \* Feel the SHC has done an outstanding job of doing these out of town hikes. Many thanks for all your efforts putting the trips together!
- \* Since we drive a long distance to get to SaddleBrooke Ranch, we are not interested in going far from here. We would consider Zion or Bryce,
- \* Personally, altitude is a problem health wise. Good only to 7500 ft.
- \* Just that I'm glad we have this club in SB. Thank you!
- \* As an average (C/C+) hiker, I am comfortable taking Road Scholar or similar hiking trips. The question for the club is whether the scope of hikes should expand much further beyond our immediate area, given that these organizations already provide such opportunities. It could be that these would appeal to better hikers, but for me, there are already many choices available. And, frankly, I would trust that an established group, which has done this sort of thing on a regular basis, would be more familiar with how to best organize such a program.
- \* We need a campground with water and electric for our pop up tent trailer. We were in Prescott after going to Supai and think it would be a great place close by for a hiking club trip
- \* You've got it covered!
- \* WANT TRIPS WITH GOOD HIKING SURFACES AS SCRAMBLING BOULDERS AND ROCKS ARE NOT GOOD FOR PEOPLE WITH NEUROPATHY BUT WHO DONT MIND ALTITUDE GAIN
- \* How much volunteers are appreciated!
- \* Wow, I think you have done an amazing job. Thank you for sparking all this interest
- \* Maybe include something like white water rafting in for one of the days.
- \* Some of us have not done the closer one night overnights like Cochise stronghold and Antelope Canyon near Page. Continuing to offer these from time to time would be excellent. I am uncomfortable leading hikes in parks, areas or regions where I have never hiked. But my hat is off to those who are able and willing to do so.
- \* I enjoy more slower hikes with time to enjoy the scenery.
